

RETRO ARCADE ART

By Christopher Tupa

This was a fun project I started after visiting an arcade on one of my travels.

I decided to pick arcade games I had never heard of or games I thought were rather obscure and do a painting inspired by that game.

My arcade knowledge isn't very impressive so some of the games I picked may have been more popular than I realized.

You can see each piece of art on the my website at:

<https://arcadeartbytupa.wordpress.com>

And to make it even better, the awesome Vic Sage at theretroist.com has a blog post reviewing each game I illustrate with screen grabs, info and history about the game. Check them out here:
